IT'S A PENALTY

L.A. SUPER BOWL LVI 2022 IMPACT REPORT

Sport Brings People Together.

The It's a Penalty Campaign harnesses the power of sport to prevent abuse, exploitation and human trafficking. According to the State of California Department of Justice, "Human trafficking is the fastest-growing illegal global business, generating an estimated US \$150 billion each year. It is the second-largest criminal industry in the world". Our campaign, during major sporting events around the world, impacts and educates the public at the Super Bowl, the Olympics & Paralympics, the World Cup and the Commonwealth Games. Since its inception in 2014, Its a Penalty, together with our partners, has reached a potential **2.6 billion*** people worldwide and has helped in protecting approximately **16,977 survivors**.

The COVID-19 pandemic exacerbated conditions of vulnerability locally in cities all over the world. Many victims were in lockdown with their abusers. Children and adults spent more time online for work and school leading to increased vulnerability to trafficking. Despite the pandemic, many thousands of people still travelled to the state of California during Super Bowl LVI. The work that we do at It's a Penalty has never been so important.

Whether we are reaching millions of people worldwide or collaborating locally in a host city, we remain committed to ending abuse, exploitation and human trafficking around the world. In collaboration with our partners, we are continuing to educate, equip, and encourage people to learn about signs hidden in plain sight, properly report these human rights violations, and advocate for those who are vulnerable. Thank you for your support of our campaign, for sharing it far and wide. We are stronger together. Team It's a Penalty.

Rob Bonta, Attorney General of California

“Human trafficking is modern-day slavery and it's happening right now in our own communities, neighbourhoods and cities. Importantly, it doesn't require movement across borders. Trafficking is about power, using power over victims through fraud, force, or coercion to exploit them for labor or sex. At the California Department of Justice, we are working hard to put an end to this heinous crime and I'm proud to stand with It's a Penalty against exploitation and trafficking...”

■ Rob Bonta, Attorney General of California
